

HRL International Private Limited

"We Can Do Everything Related To Software Sector Without Any Excuses!"

Founder: Pavan Kumar Sadashiv (B.E. CSE AI & ML)
Location: Mangaluru, Karnataka (Beyond Bengaluru Tier-2 Hub)
Sector: Deep-Tech / AVGC & Enterprise AI Software

One-Line Pitch: Democratizing Hollywood-grade DaVinci Resolve OFX visual effects, ACEScc color science, and on-device autonomous AI post-production workflows for millions of creators.

THE CORE PROBLEM

- **₹30K+ Cost Barrier:** Studio-grade VFX & color plugins cost ₹30,000-₹1,00,000, blocking 95% of indie creators & regional studios.
- **4K Compression Loss:** Mainstream video pipelines heavily compress 4K 60FPS video, losing sensor dynamic range.
- **Disconnected AI:** Web-only AI tools lack native NLE integration, causing high cloud lag & tedious manual exports.

THE SOLUTION & TECH SUITE

- **AI Cinematic Haze (OFX):** Native C++/CUDA/Metal DaVinci Resolve plugin with neural depth AI & ACEScc 12-bit DPX color science.
- **InvigiMatrix Engine:** Combinatorial NP-hard CSP solver with K-Means (k=3) anti-cheating batch planner (Live @ SCEM).
- **OmniTransform AI:** Sub-75ms streaming ElevenLabs neural voice synthesis & autonomous media agent orchestration.

MARKET OPPORTUNITY

- **TAM (\$250B+):** Global creator economy & \$40B video software market.
- **SAM (\$4.2B):** Rapidly growing Indian AVGC (Animation, VFX, Gaming) sector with 1.5M+ active video creators.
- **SOM (₹120 Cr):** 36-month target capturing 50,000+ indie editors and regional studios in India.

BUSINESS & REVENUE MODEL

- **Direct Asset Sales:** One-time lifetime licenses for DaVinci Resolve OFX plugins (₹1,499 - ₹4,999 vs. ₹30,000+ foreign suites).
- **Creator All-Access SaaS:** Recurring monthly (₹499/mo) & annual (₹4,999/yr) plans for AI suites and continuous VFX updates.
- **Enterprise Retainers:** Custom studio pipelines & media syndication contracts.

COMPETITIVE MOAT (WHY WE WIN)

- **Local GPU Acceleration:** 100% native Metal/CUDA compute with 0ms latency and zero recurring cloud server bills.
- **Certified Color Science:** Blackmagic Design certified user preserving 12-bit DPX sensor data with wide-gamut ACEScc transforms.
- **Zero-CAC Flywheel:** 2.5M+ active viewer network providing instant viral distribution and real-time product feedback.

FOUNDER & LEADERSHIP

- **Pavan Kumar Sadashiv:** Founder & Managing Director; B.E. in CSE (AI & ML), Sahyadri College (SCEM), Mangaluru.
- **Blackmagic Design:** Certified DaVinci Resolve Color Practitioner.
- **JPMorgan Chase & Co.:** Software Engineering (Distributed Kafka).
- **Deloitte Australia:** Cybersecurity & Threat Defense Governance.

TARGET GRANT ASK & FUND UTILIZATION (₹50,00,000 / ₹20,00,000 SEED)

40% • Core R&D (₹20L)

OFX C++/CUDA & ONNX AI

30% • GPU Compute (₹15L)

RTX & Apple Silicon Lab

10% • IP & Patents (₹5L)

Indian Patent Office Filings

100% NON-DILUTIVE GRANT

20% • GTM Pilots (₹10L)

1,000+ Creator Onboarding
